CMPUT 296: Basics of Machine Learning

January 14, 2021

- Lab Session yesterday, with Python tutorial, recorded and published

- Slides always available before class (when I do slides)

- Please see FAQ and Getting Started on eClass
  - Includes more things, like How to do well in this course, etc.

- Discord channels to ask questions
  - Try not to be intimidated by discussions there, I will be covering the needed background for the topics

- TQ1 due January 28, hopefully you have started the readings

January 19, 2021

- TQ1 due January 28, hopefully you have started the readings

- Feasibility of Assignment 1

  - Start the questions and see how far you can get

  - This week we'll finish all you need for Q1, Q2 and Q3

  - Soon start what you need for Q4 and Q5, but you can start those now if you read Chapter 3 (it is only 5 pages, I recommend you do it!)
